

Name: _____

Date: _____

Cut out the following cards and use for matching and sorting games. Start off by matching faceup, then turn over the cards to play memory match. Group cards by color, characteristics of the dinosaurs (two legs vs four or long vs short necks), diet (meat vs plants), Then, use the cards to make patterns. Optionally, print out multiple sets to use as math manipulatives for grouping (2 groups of 2 equals four), addition, subtraction. Set out a pattern and predict what comes next. Print on cardstock and laminate for best durability.
